

# Internet Marketing & Online promotion solutions for Lawyers

Get your website top ranked on search engines  
Increase your presence online to generate more business

This white paper will give you idea on How our search engine optimization service has allowed several Law firms in USA to rank top on search engines like Google / Yahoo / Bing, top ranking for keyword is very important for this industry as most of the people looking to hiring Lawyer start searching online using Google / Yahoo & Bing. In a survey conducted by Thomas Online Media one of the major US based online research company, 60% of the business for the fastest growing law firms comes from Online inquiry where phone number is acquired by customers by searching online and reading review ratings on blogs and local search section.

Yellow pages have lost the charm in today's world, the printed stuff is thing of the past, people are surfing internet using Wireless computer (Wi-Fi) to Mobile phones, so this is the opportunity as a Lawyer you should not miss to increase your presence online which would translate into business.

What we do is - we get ranking for Law firms website on top of search engines in an Organic way, normally as an SEO we will not Guarantee any results, but as far as Law business is concern we can Guarantee you that we will get you better website ranking for the given keyword on Search engines.

This is possible because we have developed in house specific link building techniques which will allow us to guarantee results for Law business. We understand seeing is believing in the online business, below in the chart you will find some example of SEO work, they had no presence online and now they are on top of the search for given keywords.
